CITY OF BOSTON.

Auditor's Office, July 1, 1865.

To the Honorable City Council: —

Gentlemen: In accordance with the requirement of the 15th Section of the Ordinance on Finance, I have the honor of submitting the annexed Report, showing the transactions of the financial department of the government of the city for the year which commenced with the first day of May, 1864, and terminated with the 30th of April, 1865.

The late City Auditor, Elisha Copeland, Esq., died Nov. 8, 1864, having filled that office for a period of more than twenty-three years. He was elected to the office June 15, 1841, in place of William Hayden, Esq., resigned. Mr. Copeland was an upright and faithful officer, and an esteemed citizen, and the City Council took appropriate notice of his death, and as a token of respect to his memory, the Mayor, both branches of the City Council, and the several heads of departments attended his funeral, and the city offices were closed at that time.

The undersigned assumed the duties of the office of Auditor of Accounts, December 13, 1864.

The Treasurer's Accounts (copies of which will be found attached to this Report) show that the balance of cash on hand at the commencement of the year, May 1, 1864, was $956,701 20

The receipts during the year were: —

On City account	$7,897,964 34	
On County account	64,984 09	
	7,962,948 43	

The payments were: —

On City account,	$7,490,836 82		
On County account	146,608 60		
		7,637,445 42	
			325,503 01
Balance in the Treasury, April 30, 1865,			$1,282,204 21

This balance ($1,282,204.21) is applicable to the payment of the following items, viz: —

Excess of loans and income obtained this year as per statement under the head of the Treasurer's balance,	$146,741 47
Suspense account, see report No. 50, page 7,	14,000 00
City debt due this year but not called for,	7,500 00
City Hospital, Nichols Trust Fund,	530 50
Balance to the Sinking Fund, which is to the credit of the Committee on the Reduction of the City Debt,	1,113,432 24
	$1,282,204 21

The Net Expenditures on account of the *ordinary business* of the City — exclusive of $756,600 for State Tax, and $233,500 for City Debt, and $50,000 for Water Scrip — amounted to $4,249,669.80, while

those for *extraordinary purposes*, such as State Tax, New Buildings, and War Expenses, amounted to $1,764,275.06. The net expenditures on account of the ordinary business of the city, 1864–65, exceed those of 1863–64, $2,016,399.99. This increase was caused in part by the enhanced price of the articles purchased for the several departments of the city, and the increased compensation paid to the School Instructors, Police, Firemen, and Laborers, but principally by the high premium which was paid for gold, to meet the payments of interest on the debt, and to pay off the debt which became due, as required by an order of the City Council. Among the ordinary expenditures for the city, is embraced those for carrying on the several departments of the city; the cost of the most prominent is given below, including the salaries of the officers attached to each, which are charged in this Report to salaries, compared with the last year, with the income derived from each.

The cost of the Temple Place widening, $90,000, is not included above, but is charged as an extraordinary expenditure.

The income from the several street departments was $10,617.32; last year, $5,642.09.

The net expenditures on account of the Southern Rebellion, deducting receipts on the same account, were, $417,003.24, which amount being added to previous years' expenses makes a total net cost of the Southern Rebellion to the city to April 30, 1865, of $2,573,504.22.

Among the extraordinary expenditures is $137,984.95, for the new City Hall, the total cost of which to April 30, 1865, was, $294,262.62. This building, the Committee on Public Buildings have reported to the City Council, will be completed and ready for occupancy the coming fall. Also, $56,440.44, for the City Hospital, which buildings have been completed and delivered to the Board of Trustees of that Institution. The total cost of the buildings, and grading and fencing the grounds around the same, and for furniture purchased by the Committee on Public Buildings, $349,960.14. This is exclusive of the land.

County Accounts.—The county expenditures during the year were, $146,619.60. Of this amount only $34,776.85, were made and authorized by the city authorities, or paid through the usual channels The county account shows a balance against the city of $81,635.51; last year of $109,708.33. The payments not audited by the city amounted to $111,842.75, and were made, by requisitions from officers of the various

courts, directly on the County Treasurer. It is respectfully suggested that this matter, so often spoken of by my predecessor, should be brought to the attention of the Legislature at its next session, so that such a change of the existing laws may be made as will bring all the county accounts within the examination of the auditing department of the city before being paid by the County Treasurer.

CITY DEBT. — The loans negotiated by the Treasurer during the year amounted to $639,709.80. The City Debt paid off was, $235,500, — all that became due. This shows an increase of the funded City Debt, $404,209.80. A temporary recruiting loan of $132,100, was negotiated by the Treasurer, to be paid by assessment of taxes this year, as required by law. The loans authorized but not negotiated amount to $314,890.20. On the un-negotiated loans the Treasurer has made advances to meet the payments for work now going on to the amount of $125,756.75, which advances are classified as *unfunded* debt.

The total amount of the *funded* and *unfunded* debt, on the 30th April, 1865, was $11,497,699 32
Of which the Water Works owe 6,553,845 73

Leaving for the City Debt proper $4,943,853 59

Although the *funded City Debt* has been increased during the year $404,209.80, the means on hand for paying off the debt have also been increased, so that actually the increase of the *total* debt of the city is only $90,852.63. The average rate of interest on the City

Debt is a fraction over five per cent; on that of the nominal Water Debt $4\frac{66}{100}$ per cent.

The total interest and premium account of the city, which includes that and the exchange paid on the funded City Debt, and the nominal Water Debt, the premium on the debt paid off, and the interest on the temporary loans, was $1,505,144.71, divided as follows, viz: —

Interest on Funded City Debt, payable in gold,	$391,808 71
Premium and exchange on do.	535,475 28
Interest on six per cent currency loan,	9,120 00
Interest on the temporary loan,	24,320 29
Premium on Funded City Debt paid off,	262,500 00
Interest on *nominal* Water Debt,	155,018 05
Premium on interest and exchange on Water Debt, and premium on scrip bought (on the scrip $8,313.50),	126,902 38
Total interest and premium account, paid in 1864–65,	$1,505,144 71

The highest rate of premium paid was $1.65 on the dollar, and the lowest 91 cents on the dollar. The average paid on the City Debt was a fraction less than $1.37, and on the *nominal* Water Debt was a fraction less than 82 cents on a dollar. The premium received on the City Stock, which has been sold at public and private sale during the Southern Rebellion, is as follows: 1862–63, $216,117.03; 1863–64, $93,929.64; 1864–65, $47,968.55; total, $358,115.22. The issue of five per cent gold paying bonds was stopped Sept. 1,

1864, and in *lieu* thereof six per cent currency bonds have been issued, having ten years to run.

The suppression of the Southern Rebellion, and the return of peace to our distracted country, has produced a most favorable turn in the financial affairs of the country, so that a large item of expense will be saved to our citizens in the shape of excessive payments for gold premiums on interest and debt. Any relief from taxation is appreciated, particularly at this time, by every citizen, when large National, State, County, and City taxes press upon us.

Water Debt. — The *nominal* amount of the Water Debt now outstanding is $2,942,711.11, which is $50,000 less than last year, as that amount of scrip, due in the financial year, 1867–68, was purchased by the Treasurer, with the authority of the Committee on the Reduction of the City Debt. No more of this debt will become due until April, 1871, when $668,000 will have to be paid. The *real* debt of the Water Works, — being their actual cost and the annual expense of carrying on and extending the works, — less the income received, is $6,553,847.73. The income, 1864–65, was $463,910.91; actual cost of carrying on the works, including interest and premium paid, $765,556.81; — excess of cost over income $301,645.90. The amount of income 1863–64 was $434,254.31; cost, $530,607.41; excess of cost over income $96,353.20. The average rate of interest on the *nominal* Water Debt is $4\frac{66}{100}$ per cent, and on that part of the *funded* City Debt the interest on which is charged annually to the Water Works, a fraction over five per cent.

The statements in detail of the City and County Expenditures, City Debt, of the City Property, and other Accounts required by this Department, will be found under their appropriate heads.

Respectfully submitted.

ALFRED T. TURNER,

Auditor of Accounts.

This Ordinance requires that any excess of Income over the original *estimated* Income, or any excess of Appropriations (original or subsequent) over the *actual* payments, should be carried to the credit of the Committee on the Reduction of the City Debt, and be applied towards the extinction of the Debt, *and to no other purpose whatever.*

The additional means thus asked for can only be furnished by an *authorized* transfer from some existing appropriation which can spare it, or by a *specific loan.* In this manner the City Council retain a *knowledge and control* of all the expenditures, as none can be made unless an appropriation for the same is expressly authorized by them.

OVERSEERS OF THE POOR.

Paid to the Treasurer of this Board for the benefit and special relief of those poor persons in the different Wards of the City, *having a settlement in this State*, and who without being Paupers, are proper objects for such assistance,		41,000 00

Per item No 38 *of Treasurer's account.*

There has been received to the credit of this account this year the sum of $6,866.74, *per item No.* 96 *of Treasurer's account. This credit being deducted from the above, will reduce the net cost this year to* $34,133.26, *against* $36,512.42 *last year, and* $87,979.33 *in* 1862–63.

No provision was made this year, as has been customary heretofore, for the relief of poor persons who had no settlement in any town or city in this Commonwealth. Such persons, having no legal or equitable claim on any town or city, except for temporary relief in case of sickness, have been left to the care of the State. This is the reason why our expenses have been so much less this year than in former years.

TRUST FUNDS.

FRANKLIN FUND,

FOR THE ENCOURAGEMENT OF YOUNG MECHANICS,

As it stood 31*st December*, 1864.

Dr. Franklin, in his Will, gave the inhabitants of Boston, in 1791, One Thousand Pounds Sterling, which he directed to be loaned in sums of not more than £60 nor less than £15, to one applicant at 5 per cent interest; to be repaid in annual instalments of 10 per cent each. These loans are restricted to "Young Married Artificers, under the age of 25, who have faithfully served an apprenticeship in Boston, so as to obtain a certificate of good moral character, from at least two respectable citizens, who are willing to become their sureties in a bond for the repayment of the money."

The Doctor calculated (not anticipating any losses) that the One Thousand Pounds would increase in the course of one hundred years, to one hundred and thirty-one thousand pounds, ($582,000); and of this amount he would have the managers lay out 100,000 pounds in public works: and the remaining 31,000 pounds he would have continue on interest for another term of one hundred years, at the end of which time he calculated that the fund would be £4,610,000; of which £1,610,000 was to be at the disposition of the inhabitants of the Town of Boston, and the balance to the Government of the State.
